Software Engineer (Full Stack)

Full Stack Engineer with 4+ years of experience building scalable web apps using **React.js**, **Next.js**, and **Java Spring Boot**. Skilled in crafting responsive UIs, designing robust APIs, and automating operations in **e-commerce and payments** domains to reduce manual efforts and quick resolution.

Skills

Programming Languages: Java, Python

Backend: SpringBoot, Microservices, REST APIs

Frontend: ReactJS, Next JS, Tailwind CSS, HTML/CSS, JavaScript

Databases: MySQL, Postgres, MongoDB, Redis, Appwrite

Work Experience

Tata Consultancy Service, Mumbai | Developer | July 2021 — Present

- **Designed and developed** a centralized internal tool to automate incident resolution and reprocess stuck orders across multiple systems. **Integrated scripts** into a unified platform, enabling support teams to resolve stuck orders **60% faster**.
- **Reduced customer resolution time by 90%** by consolidating critical scripts into a single platform, enabling faster root-cause analysis and recovery.
- **Automated incident** resolution using scalable script execution workflows, **reducing manual intervention by 20%** and enhancing response consistency, which significantly improved operational efficiency and minimized reliance on manual processes across support operations.
- Led the development of **reusable UI** components, **accelerating** new feature delivery by **20%** and improving code maintainability and easy to use.
- **Automated** the generation of multiple critical **operational reports** using Python scripts, eliminating repetitive manual processes and data handling. This **reduced manual effort by 60%**, significantly **improved reporting accuracy**, and ensured timely and consistent data delivery to business

Project

[Certificate Hub](#) | NextJs & MySQL

- Certification Hub provides a comprehensive and curated directory of selected technical certifications.
- **Categorized 40+ technical certifications** by technology, provider, price, and relevance, enabling faster discovery and comparison for users.
- Helped **reduce research time by over 50%**, allowing professionals to efficiently identify and invest in the most impactful certifications for their career growth.

[Tailwind CSS Animations](#) | NextJs & Tailwind CSS

- Built a responsive web app using Next.js and Tailwind CSS to showcase a library of UI animations for modern frontend development with copy paste code reusability of the animations.
- Created **50+ reusable animation components** (hover effects, loaders, scroll transitions) using Tailwind CSS utility classes and keyframes, accelerating UI development by **30%**.
- Deployed the application on Vercel, achieving 95+ Lighthouse scores for performance and SEO through static rendering and optimized routing via Next.js.

Education

Masters in Computer Application, Feb 2024 | Sastra University, Chennai

CGPA: 8.60 / 10.00

Certifications

- GCP — Associate Cloud Engineer | Google | Apr 2023
- Microsoft Azure Fundamentals | Microsoft | Aug 2022
